Objective:

Motivated and passionate Frontend Developer with experience in building modern, responsive web applications using React.js and the MERN stack. Currently Working at MTBC (CareCloud), focusing on real-world healthcare solutions. Eager to apply strong skills in JavaScript, TypeScript, and UI/UX best practices to create seamless user experiences.

Technical Skills

- **Programming & Markup:** HTML5, CSS3, JavaScript (ES6+)
- **Front-End:** React.js, Redux, Tailwind CSS
- **Back-End:** Node.js, Express.js, RESTful APIs
- **Databases:** MongoDB, MySQL
- **Tools & Platforms:** Git, GitHub, Postman, Axios
- **Core Concepts:** Object Oriented Programming (OOP), Data Structures, Algorithms

Projects

✚ CareCloud (USA Healthcare Solution):

- Collaborated on patient-centered healthcare applications, contributing to feature development and system improvements.
- Assisted in building scalable and user-friendly solutions to support healthcare workflows and patient management.

✚ [AllInOrOutMoving](#) (Moving Services Platform):

- Built a moving service marketplace platform where customers book moving jobs and service providers accept and complete them.
- Integrated Stripe payments with commission distribution for admin and service providers.
- Developed role-based dashboards and booking management using MERN stack.

Experience

✚ Software Engineer – MTBC (CareCloud) (2025 – Present)

- Collaborating with senior developers to build and maintain healthcare applications using React.js and TypeScript.

✚ Freelance Full Stack Developer – Fiverr (2022 – Present)

- Developed custom MERN stack web applications for international clients, ensuring mobile responsiveness, cross-browser compatibility, optimal performance, and consistently high client satisfaction.

Education

- Bachelor of Science (B.S.) in Software Engineering **Riphah International University, Islamabad CGPA: 3.44**
- Currently learning **Microservices architecture** and the **fundamentals of DevOps**.
